

**SECTION 1 – IDENTIFICATION**

**GHS Product Identifier | Trade Name:** Cola<sup>®</sup>Teric JSC  
**CAS Number:** 68610-39-9  
**Uses of the Substance / Mixture:** Surfactant for various applications  
**Formula:** N/A  
**INCI Name:** Sodium Capryloamphohydroxypropylsulfonate  
**Company Name:** Colonial Chemical, Inc.  
**Company Address:** P.O. Box 111, South Pittsburg, TN 37380 USA  
**Phone Number:** (P) 423.837.8800 (F) 423.837.3888  
**Emergency Phone Number:** Colonial Chemical: 423.837.8800 Chemtrec: 800.424.9300

**SECTION 2 – HAZARDOUS IDENTIFICATION**

**Classification (REGULATION (EC) No 1272/2008)**  
 Eye irritation, Category 2 H319: Causes serious eye irritation.

**Classification (67/548/EEC,1999/45/EC)**  
 Not a hazardous substance or mixture according to EC-directives 67/548/EEC or 1999/45/EC.

**Label Elements:**

**Globally Harmonized System of Classification and Labeling of Chemicals (GHS)**

Pictogram:

**Signal word:** Warning

**Hazard statements:** H319 Causes serious eye irritation.

**Precautionary statements:**

**Prevention**  
 P264 Wash skin thoroughly after handling.

**Response**  
 P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
 P337 + P313 If eye irritation persists: Get medical advice/ attention.

**SECTION 3 – COMPOSITION / INFORMATION ON INGREDIENTS**

**Substance**  
 Chemical nature: Surfactant

**Information on Components and Impurities**

Chemical Name	CAS No.	Identification No.	GHS Classification	Concentration (%)
Cola <sup>®</sup> Teric JSC	68610-39-9	CAS-No. : 68610-39-9 EINECS-No. : 271-863-0	H319: Causes serious eye irritation. Chronic aquatic toxicity, Category 3 ; H412	≤40%

**SECTION 4 – FIRST AID MEASURES**

**Description of necessary first-aid measures**

General advice: Show this safety data sheet to the doctor in attendance.  
 First aider needs to protect himself.  
 Place affected clothing in a sealed bag for subsequent decontamination.

If inhaled: Remove victim to fresh air. If irritation persists, contact a physician immediately.

Skin contact: Immediately flush with copious amounts of soap and water for at least 15 minutes. Remove and launder contaminated clothing before reuse. If irritation persists, contact a physician.

Eye contact: Immediately flush with copious amounts of water for at least 15 minutes. Consult a physician immediately.

Ingestion: If patient is conscious, and can swallow, give 2 glasses of water. Call a physician or the Poison Control Center immediately. **Do not induce vomiting**

Note to Physician: There is no specific antidote. Treatment of overexposure should be directed at the control of symptoms and the clinical condition of the patient. Any material aspirated during vomiting may cause lung injury. If it is necessary to evacuate the stomach contents, this should be done by means least likely to cause aspiration (e.g. gastric lavage after endotracheal intubation).

### Extinguishing media

Suitable extinguishing media: Carbon dioxide, multi-purpose powders; for significant fires: foam or water spray

### Special hazards arising from the substance or mixture

Specific hazards during firefighting: Combustible, following evaporation of water. During combustion: toxic vapors are released.

### Advice for firefighters

Special protective equipment: Self-contained breathing apparatus. Boots, gloves, and goggles

## SECTION 6 – ACCIDENTAL RELEASE MEASURES

### Personal precautions, protective equipment and emergency procedures

Avoid contact with eyes

Personal protective equipment: Impermeable protective gloves  
 Chemical goggles or full face shield  
 Face-shield  
 Wear protective clothing to prevent skin contact. Eyewash and safety showers in work area.

### Methods for Cleaning or Taking Up

Soak up with sand or sweeping compound and dispose as solid waste. To avoid gelling and foaming problems, do not use water to flush to the industrial sewer.

### Additional advice

Material can create slippery conditions.

## SECTION 7 – HANDLING AND STORAGE

### Handling

Advice on safe handling and usage: Handle in accordance with good industrial hygiene and safety practice.

### Storage

Recommended: Store in a low-temperature well-ventilated place away from heat and ignition sources.

## SECTION 8 – EXPOSURE CONTROLS / PERSONAL PROTECTION

### Components with workplace control parameters

Components	Value Type	Value	Update	Basis
N/A				

### Components with workplace foreign control parameters

Components	Value Type	Value	Update	Basis
N/A				

### Control Measures

Engineering measures: Avoid splashes.

**Personal protective equipment**

Respiratory protection:	Use a respirator with an approved filter if a risk assessment indicates this is necessary.
Hand protection:	Where there is a risk of contact with hands, use appropriate gloves. The selected protective gloves have to satisfy the specifications of EU Directive 89/686/EEC and the standard EN 374 derived from it. Gloves must be inspected prior to use. Gloves should be discarded and replaced if there is any indication of degradation or chemical breakthrough. Please observe the instructions regarding permeability and breakthrough time which are provided by the supplier of the gloves. Also take into consideration the specific local conditions under which the product is used, such as the danger of cuts, abrasion, and the contact time.
Eye protection:	Safety glasses with side-shields Face-shield
Skin and body protection:	Full protective suit
Hygiene measures:	Emergency equipment immediately accessible, with instructions for use. Ensure that eyewash stations and safety showers are close to the workstation location. Use clean, well-maintained personal protection equipment. Wash hands before breaks and immediately after handling the product. When using do not eat, drink or smoke. The user is responsible for monitoring the working environment in accordance with local laws and regulations.
Protective measures:	The protective equipment must be selected in accordance with current CEN standards and in cooperation with the supplier of the protective equipment. Selection of appropriate personal protective equipment should be based on a evaluation of the performance characteristics of the protective equipment relative to the task(s) to be performed, conditions present, duration of use, and the potential hazards and/or risks that may occur during use.

**SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES**

**Appearance**

Form:	Liquid
Physical state:	Liquid
Color:	Clear, amber
Odor:	characteristic
Odor Threshold:	no data available

**Safety data**

pH:	7.7-8.2
Boiling point/boiling range:	no data available
Flash point:	> 93°C
Auto-ignition temperature	no data available
Water solubility:	dispersible
Solubility in other solvents	no data available
Partition coefficient: n-octanol/water:	no data available
Vapor pressure:	no data available
Evaporation rate:	no data available
Relative vapor density:	> 1
Density:	no data available
Oxidation/Reduction Potential:	no data available

**SECTION 10 – STABILITY AND REACTIVITY**

**Chemical Stability**

Stable under normal conditions.

**Hazardous reactions**

Conditions to avoid	N/A
Materials to avoid	N/A

**SECTION 11 – TOXICOLOGICAL INFORMATION**

**Acute toxicity**

Acute oral toxicity: no data available  
Acute inhalation toxicity: no data available  
Acute dermal toxicity: no data available

**Skin corrosion/irritation**

Skin irritation: no data available

**Serious eye damage/eye irritation**

Eye irritation: irritating to eyes

**Respiratory or skin sensitization**

Sensitization: no data available

**Repeated dose toxicity**

Repeated dose toxicity: no data available

**STOT**

STOT - single exposure: no data available  
STOT - repeated exposure: no data available

**Carcinogenicity**

Carcinogenicity: no data available

**Mutagenicity**

Genotoxicity in vitro: no data available  
Genotoxicity in vivo: no data available

**Reproductive toxicity**

Reproductive toxicity: no data available

**SECTION 12 – ECOLOGICAL INFORMATION**

**Ecotoxicity assessment**

Ecotoxicity assessment: no data available

**Persistence and degradability**

Biodegradability: 14 days – 100% biodegradable

**Bioaccumulation**

Bioconcentration factor (BCF): no data available

**Other adverse effects**

Environment assessment: no data available

**SECTION 13 – DISPOSAL CONSIDERATIONS**

**Product Disposal**

Advice on Disposal: Dispose of in accordance with local regulations.

**SECTION 14 – TRANSPORTATION INFORMATION**

ADR not regulated  
RID not regulated  
IMDG not regulated  
IATA not regulated

Note: The above regulatory prescriptions are those valid on the date of publication of this sheet. Given the possible evolution of transport regulations for hazardous materials, it would be advisable to check their validity with your sales office.

**SECTION 15 – REGULATORY INFORMATION**

TSCA:	Listed
EU (EINECS):	Listed
Canada (DSL):	Listed
Australia (AICS):	Listed
Japan (ENCS):	N/A
Philippines (PICCS):	Listed
Korea (ECL):	N/A
New Zealand (NZIoC):	Listed
China (IECSC):	N/A

Follow all regulations in your country or region. Colonial Chemical, Inc is unable to confirm all regulatory information in regard to the substances in your country or region, and this information is subject to change without notice.

### SECTION 16 – OTHER INFORMATION

#### Full text of H-Statements referred to under sections 2 and 3.

H319	Causes serious eye irritation.
H402	Harmful to aquatic life.

#### Full text of P-Statements referred to under sections 2 and 3.

P264	Wash skin thoroughly after handling.
P305+P351+P338	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P337 + P313	If eye irritation persists: Get medical advice/ attention.

<b>PERSONAL PROTECTION</b>	<b>B</b>

REVISED ON 01/22/2014

The information provided in this Safety Data Sheet is accurate to the best of Colonial Chemical, Inc.'s knowledge. No guarantees or liabilities are expressed or implied. Because users are most aware of the application of the product, they must ensure that proper personal protective equipment (PPE) is provided consistent with the information contained in the product SDS. This information is intended solely for the use of individuals trained in the particular hazard rating system. It does not release users from ensuring they are in conformity with all regulations linked to its activity.
