

SAFETY DATA SHEET

1. Identification

GHS product identifier	CO-1214
SDS number	ALCH408
Product Code	95877958, 10220263, 99695502, 10220563, 92160762, 10270352
Version #	10
Issue date	11-19-2009
Revision date	10-23-2014
Supersedes date	07-16-2014
Product use	Intermediate. Cosmetics. Aluminum rolling lubricants.
Recommended Restrictions	Not available.
Synonym(s)	Lauryl/Myristyl Alcohol
Manufacturer	The Procter & Gamble Company Procter & Gamble Chemicals Sharon Woods Innovation Center 11530 Reed Hartman Highway Cincinnati, OH 45241 United States For Quality Service or Product Related Questions Call: 1-800-477-8899 PGChemMSDS.IM@pg.com For Emergency Contact CHEMTREC: 1-800-424-9300 U.S. and Canada For Calls Originating Elsewhere CHEMTREC: 1-703-527-3887

2. Hazards identification

GHS classification	
Physical hazards	Not classified.
Health hazards	Serious eye damage/eye irritation Category 2A
Environmental hazards	Hazardous to the aquatic environment, acute hazard Category 1 Hazardous to the aquatic environment, long-term hazard Category 2

GHS label elements

Signal words Warning

Symbols

Hazard statement Causes serious eye irritation. Very toxic to aquatic life. Toxic to aquatic life with long lasting effects.

Precautionary statement

Prevention Wear protective gloves/protective clothing/eye protection/face protection. Wash face, hands and any exposed skin thoroughly after handling. Avoid release to the environment.

Response IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. Collect spillage.

Storage No special storage precautions noted.

Disposal

Dispose of contents/container to an appropriate treatment and disposal facility in accordance with applicable laws and regulations, and product characteristics at time of disposal.

Specific hazards

Causes serious eye irritation. Very toxic to aquatic organisms. May cause long-term adverse effects in the environment.

3. Composition/information on ingredients

Components	CAS #	Percent
Alcohols, C10-16	67762-41-8	100

4. First aid measures**First aid procedures****Eye**

Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.

Skin

Wash off with soap and water.

Inhalation

Remove from area of exposure. Move to fresh air. If breathing stops, provide artificial respiration. If breathing is difficult, give oxygen. Consult a physician for specific advice.

Ingestion

Consult a physician. Do not induce vomiting without advice from poison control center or doctor. Never give anything by mouth to a victim who is unconscious or is having convulsions.

Notes to physician

Not available.

General advice

If you feel unwell, seek medical advice (show the label where possible). Take off all contaminated clothing immediately.

5. Fire-fighting measures**Extinguishing media****Suitable extinguishing media**

Water spray. Dry chemical. Foam. Carbon dioxide (CO₂).

Unsuitable extinguishing media

Do not use water jet.

Protection of firefighters**Specific hazards arising from the chemical**

Irritating and toxic gases or fumes may be released during a fire.

Protective equipment and precautions for firefighters

Wear self-contained breathing apparatus and protective clothing.

Fire fighting equipment/instructions

Not available.

6. Accidental release measures**Personal precautions**

Wear appropriate personal protective equipment.

Environmental precautions

The compound is readily biodegradable and is mineralized within wastewater treatment plants. Release of long chain alcohols by wastewater microbes is expected as a result of natural microbial metabolism. The safety of long chain alcohols is demonstrated for all environmental compartments.

Methods for containment

Dam and absorb spillage with sand, sawdust or other absorbent.

Methods for cleaning up

Absorb with sand or other inert absorbent. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal.

7. Handling and storage**Handling**

Wear personal protective equipment. Handle in accordance with good industrial hygiene and safety practice.

Storage

No special storage precautions noted.

8. Exposure controls / personal protection

Control parameters

ACGIH

No relevant exposure guidelines for ingredients.

U.S. - OSHA

No relevant exposure guidelines for ingredients.

Engineering controls

Mechanical ventilation or local exhaust ventilation may be required.

Personal protective equipment

General

Observe good industrial hygiene practices. Wear suitable protective clothing, gloves and eye/face protection. Avoid contact with eyes.

Eye/face protection

Tightly fitting safety goggles.

Skin protection

Wear suitable protective clothing and eye/face protection. Wear suitable gloves.

Respiratory protection

No protection is ordinarily required under normal conditions of use and with adequate ventilation. In case of inadequate ventilation or risk of inhalation of vapors, use suitable respiratory equipment with combination filter (type A2/P2).

General hygiene considerations

Handle in accordance with good industrial hygiene and safety practice. Keep away from food, drink and animal feeding stuffs.

Environmental exposure controls

The compound is readily biodegradable and is mineralized within wastewater treatment plants. Release of long chain alcohols by wastewater microbes is expected as a result of natural microbial metabolism. The safety of long chain alcohols is demonstrated for all environmental compartments.
